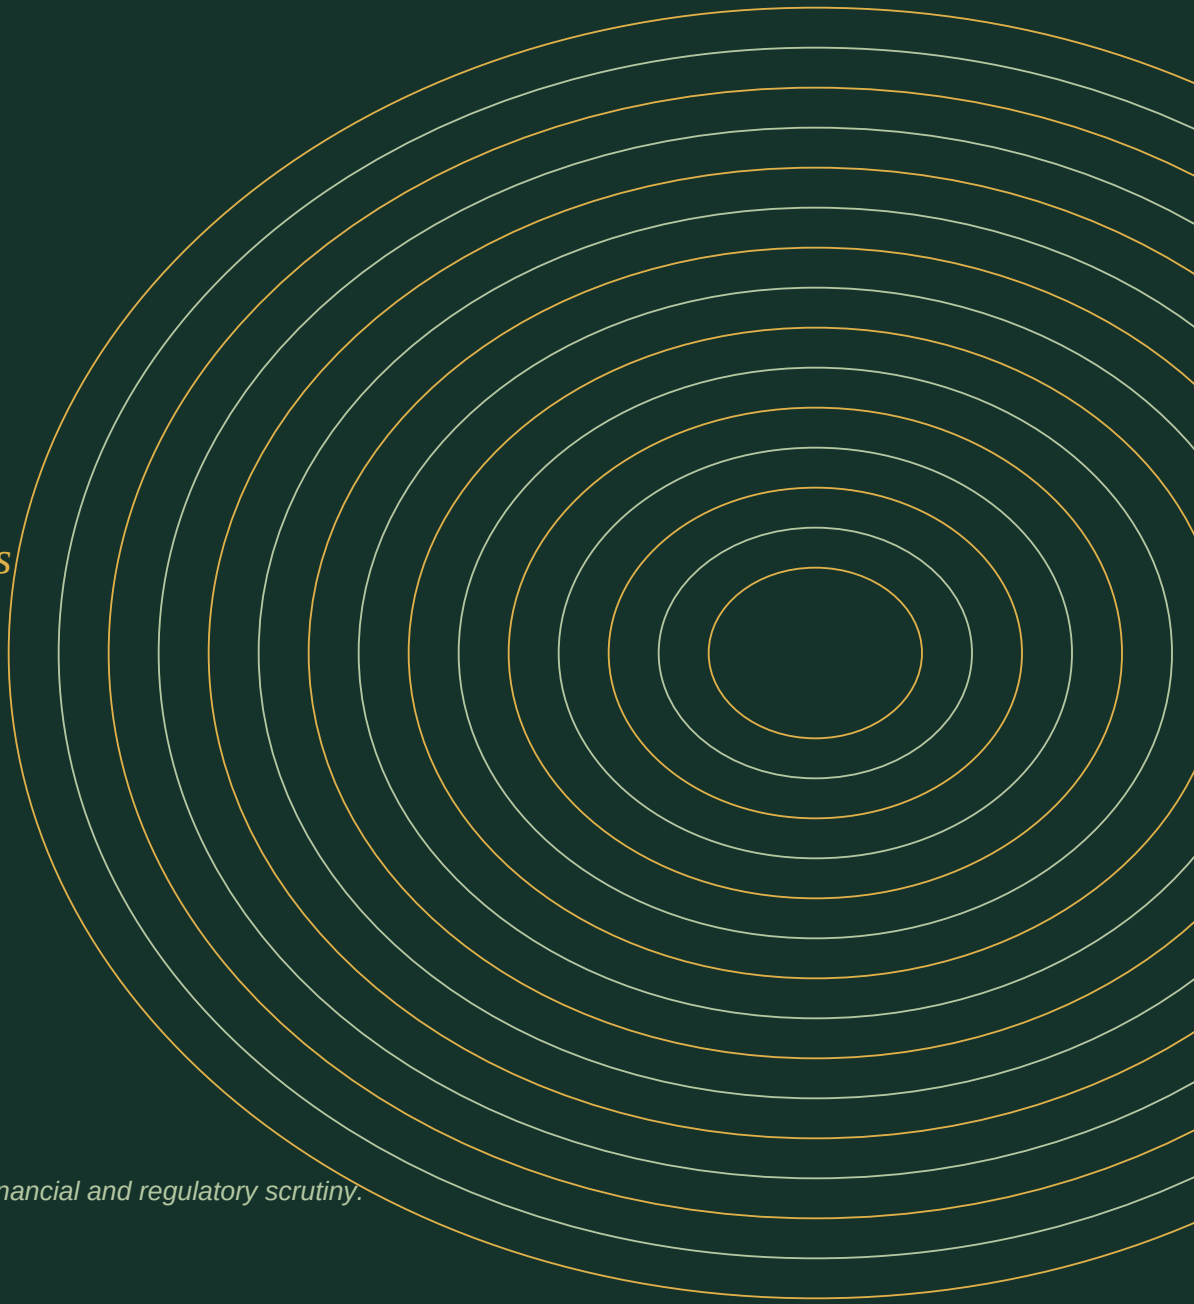
**Bick, Berry & Ross**

FORESTRY · ECONOMICS · ENERGY · POLICY

# Life Cycle Assessment

*for wood, biomass & clean-energy projects*

Tax-credit readiness.
Defensible carbon accounting.
Better project decisions.



*Independent analysis for projects that must withstand technical, financial and regulatory scrutiny.*

**bbr.northeastforests.com**

WHY AN LCA?

# More than a carbon number.

A strong LCA can create major tax, financing and project-value benefits.

§45Y · CLEAN ELECTRICITY PRODUCTION

**0.6¢**
per kWh, base

**3.1¢**
2026 increased amount

§48E · CLEAN ELECTRICITY INVESTMENT

**6%**
base credit

**30%**
with qualifying labor rules

**01** **Tax & financing readiness**

Traceable emissions framework and evidence record.

**02** **Project strategy before filing**

Test assumptions before expensive commitments.

**03** **Operational insight**

Identify emissions, cost and operational drivers.

**04** **Reusable evidence base**

Reuse the evidence base for grants, reporting and diligence.

OUR PROCESS

# From messy project data to a defensible LCA.

01 **Scope**

02 **Evidence**

03 **Model**

04 **Stress-test**

05 **Package**

THE BICK, BERRY & ROSS LCA WORKBENCH

## A proprietary workflow for forest-products and wood-energy projects.

- Requirements mapped to required data
- Source and provenance tracking
- Deterministic calculations separated from judgment
- Visible gaps, assumptions and review status

COMPILED REFERENCE LIBRARY

## A curated library of third-party LCA studies, methods and sector research.

- Treasury / IRS / DOE guidance
- General LCA methodology
- CORRIM and wood-products / biomass literature
- Forest carbon, feedstock and transport studies

THE TEAM

# Three disciplines. One integrated LCA team.

## Steven Bick, PhD

Certified Forester · forest economist · consultant

- 38+ years of practice
- Principal, Northeast Forests LLC
- 11 forestry / forest-products books

## Alison H. Berry

Economist · forest-sector consultant

- 20+ years consulting and research
- Biomass markets, economics and policy
- Project development and communication

## Maura L. Ross

Energy engineer · wood-energy specialist

- Energy engineering + environmental science
- 20+ Forest Service grants · $2.5M+
- GIS, guidance and stakeholder coordination

**Start with the project question — not a generic template.**
